## About Me

Hi, I'm Ritish and I'm currently pursuing my Bachelor's degree in Computer Science engineering with specialisation of Artificial Intelligence & Machine Learning. I've had a passion for computers since childhood and started coding in 10th grade.

Over time, I've gained proficiency in various programming languages such as C, C++ and Python. Currently, I'm upgrading my skills in MERN stack web development.

Originally from a small town in Punjab, I'm now eagerly seeking exciting career opportunities to help me unleash my full potential.
